

PE EXPANSOR 02584

Composition: VIBATAN PE EXPANSOR 02584 is a 30% dispersion of endothermic blowing agent in LDPE, free from fillers, waxes or any other lubricants.

Application: VIBATAN PE EXPANSOR 02584 is designed for polyolefines and it is suitable for injection moulding.

VIBATAN PE EXPANSOR 02584 is especially recommended for the manufacture of synthetic corks with a simulated "cork effect".

For a complete and best gas formation, which means a successful expansion, processing temperatures between 170°C and 210°C are suggested.

Food approved formulation.

In case of other application than the ones herein suggested, it is highly recommended to contact VIBA Customer Assistance before using the product.

VIBA will not be held responsible for production problems due to use of the product other than those mentioned above.

Dosage: 2% - 5% for injection moulding processing
7% for production of synthetic corks

Packaging: VIBATAN PE EXPANSOR 02584 is supplied in kg 25 bags on kg 1250 pallets.
