

## PE ANTIOX 02625

**Composition:** VIBATAN PE ANTIOX 02625 is a dispersion of a special and innovative phosphate-phenolic antiox blend in polyethylene.

**Application:** VIBATAN PE ANTIOX 02625 is suitable to be used for the processing of polyethylene. It gives a thermo-oxidative protection, both during production and during life of the end products.

The use of VIBATAN PE ANTIOX 02625 gives the following benefits:

- Half dosage compared to traditional antioxidant agents;
- High stability to colour variations, the typical yellowing of antioxidant agents;
- High thermal stability with a consequent melt stability;
- Low interaction with nitric oxide.

*In case of other application than the ones herein suggested, it is highly recommended to contact VIBA Customer Assistance before using the product. VIBA will not be held responsible for production problems due to use of the product other than those mentioned above.*

**Dosage:** 0,50% - 2,00% according to the required protection degree

**Packaging:** VIBATAN PE ANTIOX 02625 is supplied in kg 25 bags on kg 1250 shrink wrapped pallets.

**Shelf life**

6 months from production date
